I regret the language does not appear to me to convey the exact meaning of the change. It states the idea is that if there is plague in an epidemic form in Darjoh a prisoner has to be inoculated & not otherwise. Further Shw. a man who has been placed already has to be inoculated. I think you please get this in from the S. S. & put up a draft of the change

21) Rule
~~Section~~ 554 of the Jail manual
requires that every convicted prisoner
on admission into the jail should be
innoculated against plague unless
he produces a certificate of inoculation
done within the previous 12 months
and that such prisoner should be
re-inoculated every twelve
months, if he continues in the
jail.

22) The J. Cr. of Prisons suggested
that the rule be amended
requiring re-inoculation only
when plague is prevalent in an
epidemic form in the city. This
suggestion was approved and the
J. Cr. of Prisons was asked to submit
a draft amendment of the rule.
He accordingly submitted a draft.
As the language of the draft was
not clear, the J. Cr. Pr. was asked
whether it was his intention
that re-inoculation should be
enforced only when there is plague.
He has now replied in the affirmative.
He adds that re-inoculation
has to be enforced even when there
are not falls, or ^{one of} plague in a

No. 11889-99

Be 11. 5019

Directs the amendment of Sec
554 of the Mysore Jail Manual to
~~require convicted prisoners to~~
regarding the inoculation of convicted
prisoners in jails

Office of the Inspector-General of Prisons
in Mysore,

Dated Bangalore, November 1926.

From

Mr. B. Mahomed Usmon

Inspector-General of Prisons
in Mysore.

P. Panva Rao, Esqr

General Secretary to Govt., Bangalore.

Sir,

I have the honour to state that Section 554 of the Mysore Jail Manual requires that every convicted prisoner shall be inoculated for plague on admission into the Jail and re-inoculated at intervals of 12 months. In this connection, I would bring to your kind notice that whatever justification there was for adopting such a precaution in the early days of plague, it does not continue to hold good at the present time. As you are not unaware the mere fact of having been inoculated, was considered to confer on a person insusceptibility ^{to} communicating infection as much as to catching it. These notions have given way now in consequence of later discoveries concerning the aetiology of the disease.

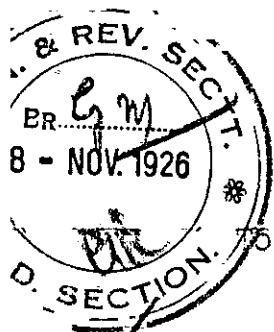

In these circumstances, I would suggest that Sec: 554 may be modified so as to require inoculation ~~as~~ being done only on occasions when the prevalence of the disease in the City in an Epidemic form renders such a precaution necessary in the interests of the health of the prisoners.

I have the honour to be,

Your most obedient servant,

Mahomed

Inspector-General of Prisons.

For Secretary - Govt.

Alm
12.2.27

No. 433 Office of the Inspector-General of Prisons
97-26 in Mysore,

Dated Bangalore, 9th March 1927.

From

Dr. B. Mahomed Usmon, L.M.S.,

Inspector-General of Prisons

in Mysore, Bangalore.

To

R. Ranga Rao, Esqr., B.A., B.L.,

General Secretary to the Government of H.
the Maharaja of Mysore, Bangalore

Sir,

With reference to your No. G. 9520/pris 14-26-
dated 3rd March 1927 enquiring whether, under the amendment
proposed, prisoners should be inoculated only if there is
plague in an epidemic form in the City and not otherwise, I
have the honour to reply in the affirmative. Inoculation
should however, be enforced even when there is rat mortality
or sporadic cases of plague in the near neighbourhood of the
Jail.

2. As regards the query contained in the last
sentence of the letter under reply, I would say that so far
it has not been authoritatively recognised that an attack of
plague confers a life-long immunity against the disease.

I have the honour to be,

Sir,

Your most obedient servant,

M. U.

Inspector
